Making Customers Friends

The more you associate with people, the more you see of them, talk with them, the easier it is to learn their interests, likings and fancies and to gain their confidence.

It is this spirit of friendship that we are striving for—to gain your acquaintance, your friendship, your confidence, for this intimacy goes a long way toward making business for us and successful dressers of our customers.

Most of our friends realize the value of frequent visits to our store—large numbers of them make it a practice to come in every so often, whether they buy or not. As a result we know them, know what appeals to them, and choose our merchandise on these grounds. We appreciate the wisdom of this plan and encourage its practice.

Today is a good time to start!
